

## Keillor Beckwith, BS – Student Life Coordinator

---

Keillor Beckwith graduated from Boston College in 2019, majoring in Political Science and minoring in History. He grew up in New Jersey, just outside of New York City, along with his four sisters and brother. Keillor spent the fall of 2017 in Perth, Australia, studying at the University of Notre Dame, Fremantle. It was during this time he discovered his love for traveling and the deep connection between humans and the land we live on, sparking his desire to see more of what this world has to offer and how we as humans can help sustain it/respect it. He has also traveled to Italy, Cuba, Spain, Vietnam, Thailand, Malaysia, and all over the US. After graduating, Keillor worked as a Property Manager in Boston.

Keillor loves being outside, exploring, learning, reading, and journaling. He is excited to get into birding, and being in the incredible natural setting of Aotearoa and all it has to offer. He is really looking forward to living intentionally, sustainably, and communally; growing together as individuals as well as a community and contributing to what makes this place so special.
